

Encon® *Encompass*® 600™

ANSI Z87.1-2010
High Impact
CSA Z94.3-2007

Pioneered by Encon Safety Products, the Encompass goggle takes over where other goggles leave off, combining the optical clarity of Encon's spherical lens design with a comfortable fit that accommodates prescription eyewear, and excellent splash protection. Another reason for Encon's reputation as an industry leader is safety products.

Chemicals and splashes may try to get in, but the Encompass goggles will keep them out. These are the best of the best, ergonomically designed to give every face a secure, yet comfortable seal. They fit over prescriptive eyewear, with a superior ventilation system to reduce heat and fog build-up, plus spherical lenses for optimum optical clarity.

Encon® High Performance Safety Goggles

Encon® *Encompass*® 600™
